## **DETAILED ACTION**

### ***Allowable Subject Matter***

Claims 1-12 are allowed.

The following is an examiner's statement of reasons for allowance: prior art, U.S. Patents # 5,508,656 and # 7,078,965 B2, does not teach nor render obvious a balanced output circuit for outputting a first output signal in accordance with an input signal received from a prestage circuit and a second output signal that is an inverted version of the first output signal, said balanced output circuit that has, in combination with other limitations, a charging circuit for charging said capacitor in accordance with said first and second output signals so that the DC voltage of said second output signal becomes equal to the DC voltage of said first output signal.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***
